

中華民國職能治療師公會全國聯合會學術研究發表獎勵申請名單(106年)

編號	申請人姓名	論文名稱
106-01	吳益芳	Effect of cognition matching hand dexterity interence with same and different numbers at dual task in survivors with schizophrenia
106-02	簡才傑	The investigation of internet addiction disorder of occupational therapy
106-03	薛文媛	提升腦中風身心障礙者之記憶功能策略:文獻回顧
106-04	廖俊智	燒燙傷病患之職能治療人在跨域團隊合作的照護課程中以擬真醫學模式配合ZUVIO雲端及時反饋系統來分析學員課程學習成效表現
106-05	施鳳眉	北部某醫學中心慢性期中風病患關懷衛教措施對憂鬱指數變化
106-06	黃瑞祥	身體活動對注意力缺失過動兒童行與認之影響
106-07	李宜峰	The effect of participating runing events for people with schizophrenia
106-08	張哲豪	The canadian occupational perfoemace measure for patients with troke:a systematic review
106-09	張哲豪	Association between smartphone use and musculokeletal discomfort in adolescent students
106-10	張哲豪	青少年高度使用智慧型手機行為與活力狀況及心理健康之相關性研究
106-11	謝好葳	Bilateral robotic priming before task-oriented approach in subacute stroke rehabilitation:a pilot randomized contrlled trial
106-12	黃湘涵	The use of modified ride-on cars to maximize mobility and improve socialzation-a group design
106-13	徐宛伶	普瑞德威利氏症群成人患者之視覺動作整合表現與職能治療介入成效:前導性研究
106-14	李冠逸	The effect of dopaminergice medication on joint kinematics during haptic movements in individuals with parkinson's disease
106-15	李欣潔	The effect of a virtual reality game interention on balance for patients with stroke :A eandomized controlled trial
106-16	莊宜靜	Using rasch analysis to validate the motor activity log and the lower functioning motor activuty log in patients with stroke
106-17	吳菁宜	Kinematic manifestation of arm-trunk performance during symmetric bilateral reaching after stroke
106-18	李淑君	A reliable and valid assessment of sustained attention for panients with schizophrenia:The computerized digit vigilance test
106-19	張隴心	某精神專科醫院慢精神病人負重訓練對於生理功能影響
106-20	張隴心	某精神專科醫院慢精神病人實施自主運動執行之成效
106-21	張隴心	某精神專科醫院慢精神病人實施自主運動執行之成效
106-22	王浣妮	The computerized perceptual motor skills assessment :A new visual perceptual motor skills evaluation tool for children in early elementary grades
106-23	陳顥齡	Psychometric and clinimetric properties of the melbourne assessment 2 in children with cerebral palsy
106-24	許庭榕	Predictors of non-pharmacological intervention effect on cognitive function and behavioral and psychological symptoms of loder people with dementia
106-25	劉怡佳	Dual-task performance in individuals with and without schizophrenia spectrum disorders:implications for daily functions
106-26	許庭榕	Effects of exercise on dementia-related wandering behavior-a literature review
106-27	林克忠	A preliminary investigation of the association of sleep with inflammation and oxidative stress biomarkers and functional outcomes after stroke rehabilitation

106-28	馬慧英	Responsiveness of the short-form health survey and the parkinson's disease questionnaire in patients with parkinson's disease
106-29	陳生松	使用改良式擴嘴部燒傷患者之初步成效
106-30	林侑萱	The motivtion of chronic stroke survivors' continuing engagement in rehabilitation at medical institutes
106-31	阮懿秀	A qualitative exploration of the private long-term care facolities' satisfaction towards service accreditaionin kaohsiung
106-32	林侑萱	職能治療對慢性肺阻塞介入與療效探討:個案討論
106-33	柯瑋婷	Exploration of the referral model of a metropolitan day care at a teaching hospital in taiwan
106-34	陳美香	Refining three measures to constuct an efficient functional assessment of stroke
106-35	成冠緯	Psychometric properties of three measures assessing advanced theory of mind:evidence from people with schizophrenia
106-36	陳柏仔	Shoulder ultrasonography performed by orthopedic surgeons increases efficiency in diagnosis of rotator cuff tears
106-37	李佳宜	擬真模式跨領域合作照護教育課程成效探討
106-38	李佳宜	Application of a sip tea model in team meeting to improve interprofessional collaborative practice
106-39	廖研蒲	男生的字比較醜?
106-40	廖研蒲	運用「生涯卡」了解病人的價值觀:以慢性中風病人為例
106-41	劉秀之	台中市身心障礙者職業輔導評量服務探討-101-103年度職評報告分析
106-42	郝先潔	Associations between physical fitness and cognitive performance in patients with schizphrenia
106-43	張雁晴	A pilot comparative study of one-way versus two-way text meessage program to promote physical activity among people with severe mental illness
106-44	王國明	Effects of the exercise program on blood biochemical values change of chronic kidney disease patients in northern taiwan
106-45	葉修辰	Immediate effects of aterally-wedged insoles with arch support on dynamic stability during level walking in people with medial knee osteoarthritis
106-46	黃小玲	One-year motor recovery in patients with severe upper extremity paresis after stroke
106-47	黃小玲	Comparison of construct validity of two short forms of stroke-specific quality of life scale
106-48	黃小玲	嚴重下肢癱瘓中風病患的動作恢復:一年追蹤
106-49	謝清麟	Comparison of construct validity of two short forms of stroke-specific quality of life scale
106-50	陳怡妙	Test-retest reliability and minimal detectable change of two simplified 3-oint balance measures in patients with stroke
106-51	薛漪平	The-retest reliability and responsiveness of the barthel index-based supplementary scales in patients with stroke
106-52	江熠嫻	Post-acute intervention in amputated patients following major burn injury
106-53	陳思帆	Executve functions among youths with autism spectrum disorders:dose the asperger's disorder present similar deficits with the high-functioning autism?
106-54	陳思帆	The efficacy of horticultural therapy in youth with autism spectrum disorder by using aquaponics system:the pilot study.
106-55	林雁飛	Use of a modied anerior ankle ankle-foot orthosis for a paient with calcaneus fracure and avulsion of achilles tendon:single case study
106-56	林雁飛	降低住院病人會診復健業務之未完成率
106-57	林雁飛	副本修改率改善案
106-58	古芳菱	電動代步車相關駕駛評量回顧
106-59	古芳菱	運用問題解決型品管圈降低副本穿戴錯誤率:醫病溝通之強化

106-60	古芳菱	中風患者運動代步車駕駛表現之相關因子
106-61	古芳菱	運用品管圈手法降低副木穿戴錯誤率
106-62	何琇渝	職能治療認知刺激活動對中風病人認知功能和生活品質之初探
106-63	吳紋綺	Validation of the test of visual perceptual skills-third edition in patients with stroke
106-64	周瓊霞	Cognitive effects of weight-shifting controlled exergames in patients with chronic stroke: a pilot randomized comparison trial
106-65	謝彥緯	Post-disaster occupational therapy program for kaohsiung 81 gas explosions-social resource connectivity of post-disaster occupational therapy program for the 2014 kaohsiung gas explosions
106-66	謝彥緯	Developing model of multi-domain health promotion service in kaohsiung taiwan-inplemetaation and promotion of the multi-domain health promotion service
106-67	游敏媛	Ecological validity, discriminative validity, and convergent validity of the wisconsin card sorting test in ptiens with stroke
106-68	張瑞昆	Comparative study of STEF(simple test for evaluating hand function)and 3 other evaluation tools
106-69	游雅筑	如何使用實證醫學探討運動治療對過動兒的療效
106-70	楊文英	急性後期中風病患上肢體動作缺損與日常生活功能之關聯分析
106-71	蔡伊純	Using augment reality app to enhance the learning of clinical skills and therapeutic modalities in occupational therapy students:experience from kaohsiung medical university
106-72	黃麟傑	Comparison of affecting factors for flow experience between samples of schizophrenia and general population
106-73	黃麟傑	Confirmatory factor analysis of the short DFS-2 and FSS-2 for persons with schizophrenia in taiwan
106-74	王三平	The effects of dual-task movement training on improving gait and balance ability in psychiatric patients
106-75	王三平	The predictors of employment outcomme by functional remission in chronic patients with schizophrenia:a cohort study
106-76	李書齊	The quality of life and occupational performance for chronic patients with schizophrenia after occupational work training
106-77	王歆瑜	Shared book reading in young children with developmental dealy and trpical development
106-78	陳明德	A qualitative exploration of and barriers to physical activity participation in people with severe mental illness in Taiwan.
106-79	徐秀雲	Determining the functional sensibility of the hand in patients with peripheral never repair:feasibility of using a novel manual tactile test for monitoring the progression of never regeneration
106-80	詹佩穎	Mind your breaths:respiratory sensation from basic sciene to clinical applications
106-81	詹佩穎	Respiratory sensation in people with mental health and disorders:electrophysiological evidences
106-82	鄭嘉雄	Differential motor cortex excitability during observation of normal and abnormal goal-directed movement attens
106-83	陳明義	鏡像治療在中風患者上肢動作恢復之成效探討
106-84	陳明義	連動式足部側翻矯正裝置之創作
106-85	陳明義	輕度認知障礙患者之認知促進介入照護方案模組
106-86	王怡晴	褚氏 日常生活評量表應用於思覺失調病人之心理評量特性分析
106-87	黃欽聖	Working abroad:singapore perspectives:sharing cliniccal experience in acute physical setting

106-88	黃鈺茗	The effect of mirror therapy augmented by accelerometric feedback on motor recovery and daily function in stroke:a pilot study
106-89	陸霆鈞	The effects of combining direct current stimulation with mirror therapy and the time-dependent effects in motor function,and activities of daily living in patients with chronic stroke:a pilot study.
106-90	蕭鈺沛	The effects of weighted wrist cuff on unpper limb function in patients with parkinson's disease:a kinematic and kinetic analysis
106-91	游濬璋	The feasibilty and perliminary outcomes of mHealth Interventions for severe mental illness.
106-92	沈宜璇	An erp study on the percetion and the recognition of face,facial features ,and objects in children with autism disorders
106-93	鄭堯云	Handedness in children with diplegia from the perspectives of frequency-oriented motor assessments
106-94	陳羿君	Reflection of visiting monash university
106-95	簡穎君	The effect of the growth group for employment on self-efficacy in individuals with mental illness
106-96	劉文升	The effectiveness of the "road runing"for people with severe mental illness-a pilot program
106-97	黃婉茹	精神科老人日間中心之照護成效-以南部某精神專科教學醫院為例
106-98	黃婉茹	Effectiveness of self-assessment scale on research achievements among OT staffs-An example from a psychiatric center in southern Taiwan.
106-99	蕭憶涵	The effectiveness of interactive -multimedia-psychoeducation with adolesents in preventing drug abuse.
106-100	黃文儀	縱貫性探討精神障礙者參與社區服務之內在汙民化變化
106-101	黃文儀	Meaningful occupations for individuals with mental illness through hospital based patient safety work:a preliminary study
106-102	黃文儀	Exploring of memtal adaptation in people with mental illness in acute stage during hospitalization
106-103	許瑋云	Investigation of nonverbal behavior in shizophrenia by videotaped interviews:a pilot study
106-104	蘇玟禎	Lessons learned from a recovery-oriented program for people with mental illnss in Taiwan
106-105	黃玉芬	Weight management program from occupational therapy perspective and a study proposal
106-106	楊沐穎	雙重任務情境於精神疾病患職能治療之意涵
106-107	張晉毓	The occuppation of chronic atients with mental illness in work training
106-108	張家妤	社區衰弱長者之休閒活動參與情形
106-109	呂文賢	Test-retest reliability and minimal detectable change of beck depression inventory and the taiwan geriatric depression scale in patients with parkinson's disease
106-110	張自強	The recovery of the clients with psychiatric disabilities after the application of multiple rehabilitation model
106-111	林玉雅	Outcome of the vocational training program for people with mental illness
